

## **St Gabriel's College at Cormont Road Site**

**Dear Resident**

24<sup>th</sup> June 2016

We are now reaching the end of our abnormal deliveries arriving on site to construct the temporary school in Cormont Road. We are working to remove most of the traffic and parking restrictions imposed to facilitate this work.

However, we wish to notify you that in accordance with our previous two local updates we have made arrangements through Lambeth Highways department to retain the parking restrictions in a small area close to the construction entrance on Cormont Road itself. These restrictions are necessary to ensure construction deliveries and deliveries by our removals contractor who are moving the school from the Brooke Site into the Cormont Road site can take place without obstructing the highway.

Following completion of the removal process from St Gabriel's College to Cormont Road in early September all of our restrictions will be removed and arrangements to suit the operation of the temporary school will be implemented. These arrangements for the school operations are currently being finalised.

We will update you of progress on a regular basis.

Regards

**Steve Lomax**

Senior Site Manager, Kier Southern
